Handsomely Illustrated Retail Catalogue  
Mailed Free on Application

Mo. Bot. Garden

The large, nearly globe-shaped Onions, with thin skin of bright straw color, are of immense size, measuring from 12 to 18 inches in circumference, while under special cultivation specimen bulbs have been raised to weigh from 3 to 5 pounds each. They ripen up hard and fine, and present the handsomest possible appearance. The flesh is pure white, fine grained, mild and delicate in flavor; excellent for fall and early winter.

---

**The Ideal Onion to Grow for Profit**

Dear Sir:--

It is with pleasure we again send you our Wholesale Catalogue of seeds. Having served you in the past, which we hope has been to your satisfaction, we naturally look for a continuance of your valuable patronage, and if favored with same, we will do our best to fill your order with care and dispatch.

What varieties of packet seeds you are short on, to make your assortment complete, "order". You will observe that our prices on bulk seeds are lower this year than ordinarily.

We have a fair supply at this writing and we would particularly request that you place your order as soon as possible, as we know for a certainty prices will materially advance as the season progresses.

Because of the growing condition of the Northwest being more favorable the past season than other seed growing sections, we feel we are in better shape in regard to stocks, and lower prices than the majority of other houses not so favorably situated.

Our stocks are of 1912 growth and you will find them first-class in every particular. Again we desire to thank you for your past patronage and we hope we may merit a continuance of same.

Wishing you a happy and prosperous New Year,

We are, yours truly,

L. L. MAY & CO.

# TO OUR PATRONS AND ALL MERCHANTS WHO SELL SEEDS

ST. PAUL, MINN. JAN. 1, 1913.

It is with pleasure we hand you our **Trade Price List** for 1913, and again take this means of securing your esteemed orders for **Seeds** for the coming season. Merchants who have handled our seeds in the past are well aware of the excellent quality of them, also know that we protect them by always quoting the very lowest price on all varieties. By carefully comparing our prices with those issued by other reliable concerns, you will find that on a general line of seeds you can buy from us to an advantage, and when you receive seeds bearing our label, can rest assured that you are handling those of a superior quality and need have no fear as to their giving your customers entire satisfaction and receiving an increased demand for them from your trade.

Soliciting your esteemed orders and assuring you if favored with the same that we will use all endeavors to make a continuous customer of you, we remain

Truly yours,

L. L. MAY & CO.,

Seed Merchants and Growers,

St. Paul, Minn.

**ALL ORDERS** will be executed carefully and promptly and shipment made as directed. Where no directions are given we will use our best judgment in shipping and forward by the most direct and cheapest route.

**ORDER EARLY.** We are already sold out of a few varieties of which the crop was an extremely short one, but our stocks of most staple seeds are larger than ever before, and we trust large enough to enable us to fill orders as received. Still, owing to the great scarcity in many lines and the consequent increased demand we earnestly advise all our customers to place their orders early, to insure their being filled before our stocks are depleted. We will fill orders at prices herein quoted until present stocks are exhausted, but will not be bound by these prices for any definite time nor quantity, and they are subject to advance without notice.

**THE BEST IS NONE TOO GOOD FOR OUR PATRONS,** and we realize this as much as any of our largest market gardeners, and know there is not a firm in the world which is more particular regarding the purity of their seeds than we are, but still, like all other seedsmen,

**WE DO NOT GIVE ANY WARRANTY, EXPRESS OR IMPLIED, AS TO THE DESCRIPTION, QUALITY, PRODUCTIVENESS OR ANY OTHER MATTER CONNECTED WITH THE SEEDS, PLANTS, BULBS, ETC., WHICH WE SEND OUT, NOR WILL WE BE RESPONSIBLE IN ANY WAY FOR THE CROP.**

Every order received for goods enumerated in this catalogue will be executed and sent out only on these conditions.

**TERMS.** All bills of Garden Seed shipped after Jan. 1st are due net cash June 1st, 1913, without regard to date of purchase. Shipments made after June 1st, are due net cash Oct. 1st, and all shipments after Oct. 1st are due net cash Jan. 1st, 1914.

**BIRD SEED, FIELD SEED, LAWN SEED, GRASS SEED, CLOVER SEED, POTATOES, ONION SETS AND TOOLS ARE SOLD STRICTLY FOR CASH, SUBJECT TO SIGHT DRAFT IF NOT PAID WITHIN TEN DAYS FROM DATE OF BILL.**

**PRICES QUOTED** are for goods F. O. B. St. Paul. All orders however received before Feb. 15th we deliver at one of the following central points which is nearest to your place: Chicago, Kansas City, St. Louis.

Boxes, barrels and bags, to insure safe transportation, are charged at cost.

Ten lbs. and more will be supplied at the rates per 100 lbs., and 2 bu. or more at the 10 bu. rate.

Extra Early Valentine

Davis' Kidney Wax

## GENERAL LIST OF GARDEN SEEDS CROP OF 1912

PERFECTLY FRESH AND ALL SHOWING A HIGH TEST OF GERMINATION

A telegraphic cipher is attached to each article, which will enable orders to be sent by wire at a small expense. In dispatching use the word freight, express or mail, to designate how to ship. For example, "Freight hundred bush," means ship by freight one-hundred pounds beet, May's Early Blood Turnip Improved.

Note---In ordering by mail please do not use it, only in cases when you order by telegraph. Kindly bear this in mind, as it will save us an endless amount of work, also prevent delay in the execution of your order.

### MAY'S MARKET GARDENER

**THE TRUCKER'S FAVORITE.** An extra early variety, and one that has become a great favorite with the gardeners in all sections on account of its uniform size and handsome shape. It is a perfect variety and on account of its earliness and fine appearance invariably bring a good price on the market. **When cooked they are of a beautiful deep red throughout, fine grained and very sweet.** We heartily recommend this variety to everyone who grows vegetables for marketing. It is also valuable for private use, but its greatest value is to the market gardener.

# Cabbage

## HOLLANDER

Without exception the best late cabbage ever offered the gardeners of America. It is a wonderfully hardy, strong, vigorous grower, enduring both frost and drought and producing the most perfect, solid, round heads in seasons when other varieties fail completely. For market gardeners and large cabbage growers Hollander is unequalled, its keeping qualities being superior to any other variety. A head of Hollander when properly trimmed for marketing will weigh fully one-quarter more than any other cabbage of the same size. Some strains are listed as "Ball Head," "Emperor," and "Export," but none of these can equal our selected stock of true Hollander.

# SWEET CORN

**NOTICE:--Shelled Sweet Corn** even after being thoroughly cured often **gathers moisture** in the sacks, It should be **examined** when received and if damp, spread out for a **few days** in a dry place.

All Sweet Corn sold on a basis of 50 lbs. per bushel except where otherwise noted.

Owing to the inclement weather last fall, all corn was harvested in a very damp condition and it still remains to be seen what quantity will be available for seed purposes.

Rocky Ford Netted Gem

Osage Melon

## MUSK MELONS

### ROCKY FORD NETTED GEM

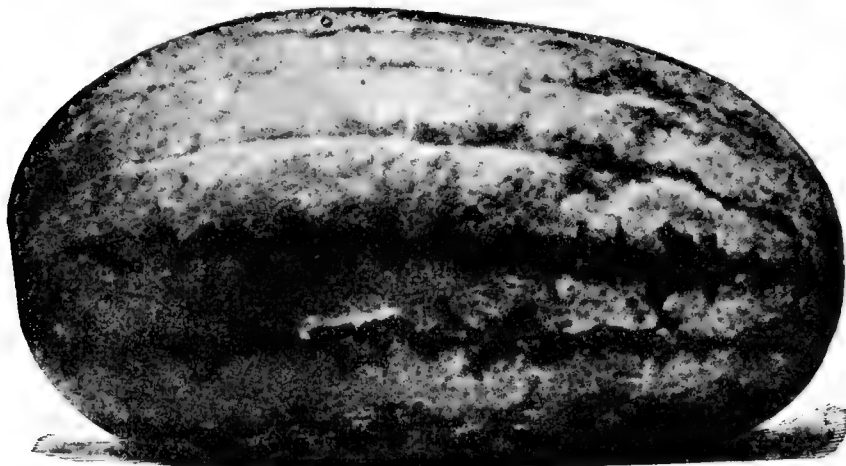

Many carloads of this variety have been shipped in the last three years from the growers of Rocky Ford, Colorado, from which the name is derived, to all our large cities, and no muskmelon ever sold so readily and brought such high prices as Rocky Ford. The fruits resemble the old Netted Gem, but are more oval in shape, skin green, slightly ribbed and heavily netted. The flesh is a light green in color, thick, ripening clean to the rind, with a very small seed cavity, very sweet and of luscious flavor. It is one of the earliest melons, and exceedingly prolific.

The Rocky Ford has become one of the most popular melons, and it is unquestionably one of the best for market gardeners and shippers, as well as for the home garden.

KLECKLEY'S SWEET

## WATER MELON

**KLECKLEY'S SWEETS.** For home use this is unsurpassed. The vines are strong and vigorous and the fruits grow uniformly to quite a large size; oblong in form. 18 to 20 inches long and 10 to 12 inches in diameter, rather tapering at the ends. The skin is a rich dark green, while the flesh is bright scarlet, ripening close to the skin, the rind being only about half an inch in thickness.

Nott's Excelsior Pea

Northwest Premier Pea

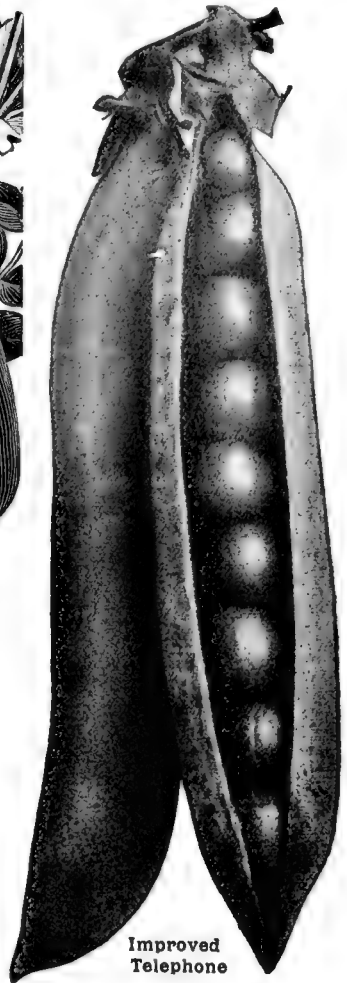

## PEAS

Peas are scarcer than has ever been known before, many varieties nearly complete failures, while those prices may appear high they do not represent the true value of Peas today.

Varieties marked thus (o) are wrinkled sorts and are sold at 56 lbs. per bushel. All smooth peas at 60 lbs. per bushel.

Nasturtium

thin to 6 inches. They bloom most profusely in poor soil. Our special mixture is made up from the best sorts in an even proportion of colors. Per  $\frac{1}{4}$  lb. 20c, 1b. 70c 40c, 10 lbs. \$3.00.

## Dwarf Nasturtiums

### MAY'S SPECIAL MIXTURE

Dwarf Nasturtiums are most admirably adapted to beds and borders. "May's Special Mixture" of Dwarf Nasturtiums will give a larger variety of colors in even proportions than any other Nasturtium mixture, for it is put up by ourselves from named sorts, which have the richest and most varied combination of colors ever produced, showing odd colors hitherto unknown among flowers. Per  $\frac{1}{4}$  lb. 25c, 1b. 75c.

Dwarf Sorts, all colors mixed. per  $\frac{1}{4}$  lb 15c, 1b. 40c, 10 lbs. \$3.00

## Tall or Climbing Nasturtiums

### MAY'S SPECIAL MIXTURE

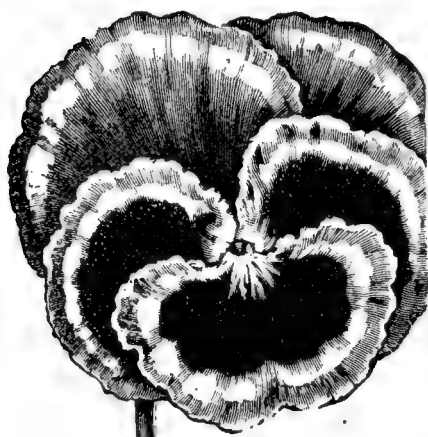

Besides their ordinary garden use for trailing over fences, trellises, stone walls, etc., these can also be grown as pot plants for winter flowering, as screens, or as trailers for hanging baskets and vases. Sow plenty of seeds in drills, and

## Lawn Grass Mixtures

**Central Park Mixture** For lawns of any extent we recommend this as our best mixture. Per 100 lbs., \$25.00

**Evergreen Mixed Lawn Grass** This is a good mixture, but not equal to Central Park Mixture. Per 100 lbs., \$20.00

**May's Terrace Sod Mixture** A special mixture of grasses for sowing on terraces and side hills. Per 100 lbs., \$25.00

**May's Special Golf Link Mixture** This mixture is composed of grasses best suited for golf links. Per 100 lbs., \$25.00.

**Tennis Court Mixture** Especially adapted to the requirements of Tennis Courts, Cricket Fields, etc. Per 100 lbs., \$25.00.

**Shady Nook Mixture** In many lawns there are large shade trees and shady places where ordinary mixtures thrive but poorly or die out altogether. For such spots we have a special mixture of grasses which will grow in the shade as well as in the sun. Per 100 lbs., \$25.00.

Our Central Park, Terrace and Sod Mixtures we put up in cases containing 24 one quart lithographed cartons. Per Case, \$3.00.

## SEEDS IN CARTONS

**PEAS, BEANS, AND CORN** in Cartons Per 100, \$6.50; Per 1000, \$60.00.

Seeds in 1-4, 1-2 and 1 lb. Cartons sold at pound prices and 1c additional for each carton.

We wish to call your attention to our Lithographed Cartons of Peas, Beans and Corn, also Turnip Seed in 1/4 lb. Cartons. These are very handsomely gotten up, as shown in illustration here-with, in fact no firm in the Seed Trade has anything to offer that is put up in a better style of package or contains goods of equal merit. The varieties used in these Cartons are the best of the standard sorts known in the trade today and nothing more suitable could be put up for planting in the home garden. The packages are very attractive, and if well-displayed, will prove ready sellers in any general store.

### REASONS WHY A DEALER SHOULD PURCHASE CARTONS MADE UP READY FOR SALE.

1st. He obtains a more handsome package than can be made up from his own bulk, unless he were to go to a prohibitory initial expense in the way of stationery.

2nd. Many or all of his customers call for a packet which will go further than the ordinary five cent packets sold by everyone. This our carton does and fills in a great want amongst Home Gardeners who need more than a 5 cent packet contains and yet not ground to plant a whole pint.

3rd. A dealer buying Peas, Beans and Corn in bulk has to put out considerable expense in labor and packing besides the waste of handling, before his goods are ready for the customer, and even then they are not in such attractive shape as when put up in our Lithographed Cartons.

4th. A great advantage in buying ready to sell is the liability from error. In the making up of 100 or 1000 cartons, we go once to our stock, a dealer in making his individual orders would go 100 or 1000 times to his stock, largely multiplying the chances for error.

5th. Remember when a dealer has call for a packet of Corns, Beans or Peas, he can just as easily sell a carton as a small packet and the profits on our cartons selling at 10 cents retail is 66 per cent on his investment.

## SWEET PEAS AND NASTURTIUMS

### PUT UP IN OUNCE PACKETS, BEAUTIFULEY LITHOGRAPHED IN COLORS

The growing demand for these popular flowers has had the tendency to bring in demand packets larger than the ordinary and to supply this want we have put up in handsome lithographed packets the finest named varieties and mixtures that can be grown.

Cultural directions on all packets.

THE  
**WONDERFUL**  
NEW  
**OATS**

# Scottish Chief

This variety was originated in Scotland, where it is one of the best yielding kinds, crops of 150 bushels per acre being common with the Scotch farmers. We obtained seed stock of the Scottish Chief several years ago and have grown it on our Mayfield farms where it proved the best and most productive variety the first year sown, out of some forty well-known and new sorts tested. Since then we have greatly improved this variety and do not hesitate now to offer it as the **HEAVIEST, EARLIEST** and most **PRODUCTIVE** white oats in cultivation.

**DESCRIPTION:**—This oat grows to a height of from five to six feet. The straw is exceedingly strong and wiry, enabling it to hold up its enormous heads of grain without breaking or lodging it in the least. It is entirely free from rust. The berry is very large and plump, almost like a barley grain, with a very thin hull. The weight of a measured bushel is from 40 to 42 pounds.

Genuine Seed can be obtained only from us

**SAMPLE SENT ON REQUEST**

*Price:—1 bu. 90c; 10 bu. lots per bu, 75c.*

**A TRIAL WILL CONVINCE YOU OF THE  
QUALITY OF THIS GRAND OAT.**

# IDEAL Incubators and Brooders

To meet the popular demand of our many customers for first class Incubators and Brooders, we are offering to our trade, this year, the "FAMOUS IDEAL." Those Incubators are made of the very best material, constructed by skillful Mechanics and not only good for this year, but a good and substantial Machine as long as you want to use it.

Those Incubators are heated with Hot Water, the safest and most successful system known and are equipped with safety lamp Thermometer, egg trays, egg tester, etc.; in fact when you buy this machine, you don't have to buy any extras.

## The Brandt Sprayer

A new sprayer designed to overcome the many objections to the compressed air sprayers now on the market. Instead of pumping the air into the reservoir before starting to spray this sprayer is fitted with a pump which can be worked while you walk, thus controlling the pressure at will. Can be used for one or two rows, and will spray from 15 to 25 hills of potatoes with each stroke of the pump. Reservoir holds 3 gallons of liquid, enough to spray a row a mile long, with only one filling.

Price, Galvanized steel tank, single nozzle and funnel, \$3.75

Brandt Sprayer

# SPECIAL NOTICE

# VITALITY OF SEEDS

All perishable varieties of Vegetable Seed sold at prices herein mentioned which are carried over by our customers this coming year will be replaced free of charge next season. This applies to all Vegetable Seed packets, whether sold in boxes or otherwise.

For the guidance of our customers, below will be found a Vitality list, and if you have on hand purchased from us in former years, packets of any varieties running beyond the date of vitality, we will replace the same free of charge this season on notification.

The following schedule gives the length of time that seeds will grow freely. It is true that some varieties will keep even longer than the period mentioned, but their vitality will be greatly impaired. Parsley and corn salad will grow more freely the second year than the first, and cucumbers, melons and squashes produce larger crops from seeds two years old than from the new, from the fact that they make less growth of vine and set their blossoms more freely.

Seeds of all kinds should be kept in a dry situation and in sacks in preference to barrels.

## MARQUIS WHEAT

The holder of the world's championship. The gold mine of the western farmers.  
The earliest maturing wheat known. The heaviest yielding variety on the market.  
Its Baking quality is unsurpassed.

200 bushels from a 4 acre field. 66¼ lbs. to the bushel.

What Marquis Wheat means to the western farmers, with the short seasons and early frosts, only the western farmers know, and to find a wheat that would ripen before the first frost and still give a heavy yield has been the aim of farm seed experts for years.

Marquis wheat is recommended as the most promising sort at present available for farmers who require a hard red wheat of high baking strength, ripening ten days earlier than Red Fife. Send for circular and sample of the new wheat. Put up in sealed bags only.

**LB. 20C, POSTPAID; PECK, \$1.00, EXPRESS OR FREIGHT;  
1-2 BUSHEL, \$1.75; BUSHEL, \$3.00.**

In larger quantities write for prices.

## GRASS AND FIELD SEEDS

Our stock of Grass and Field Seeds is in every way complete. We handle all grades and know that in an equal quality we will not be undersold. Inasmuch as there is a vast difference both on seeds and grade, we will take pleasure in submitting samples, and on comparison with our seed and prices we can assure you our prices will be found to be the lowest. Invoices of Grass, Clover and Forage Plant Seeds to all points on the lines of the Northern Pacific, Great Northern, and Minneapolis, St. Paul & Sault Ste. Marie, in Minnesota and North Dakota, and non-competitive points in Montana will be billed at half tariff rates with a minimum of 15c per 100 lbs. less than carload lots, and 10c per 100 lbs. on carload lots of 30,000 lbs. and over.

Terms on Grass and Field Seeds are Net Cash.

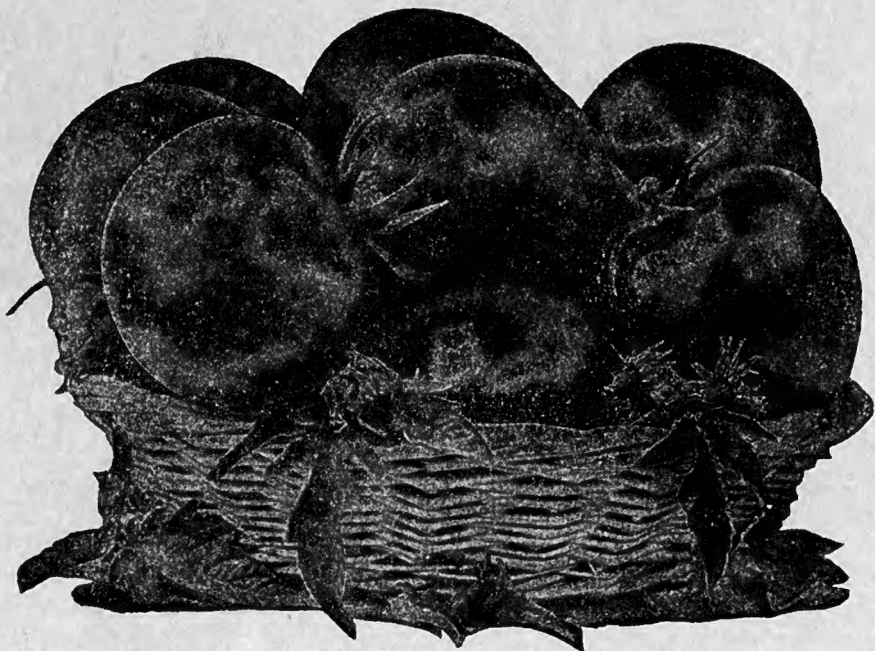

Bags charged at cost.

All Prices on field seeds are f. o. b. St. Paul.

### GRASS AND CLOVER SEED

Owing to the fluctuations of the markets at the time of this Price List going to press, any prices on some field seeds, like clover, timothy etc., we might make would only be misleading. When making up your order write us for prices, stating varieties and quantities wanted, and we will make you the lowest possible prices.

NEW STONE, Much reduced

## A Great Canning Variety

This is the best representative of the Livingston type and is grown more extensively than any other for a main crop, especially by Market Gardeners and large growers. The fruit is very large, solid, of a bright red color, ripening evenly to the stem without a crack. The plants grow vigorously and are very productive, a popular variety for family use, and the mainstay of the Canning trade.
